Department of Civil & Systems Engineering
Johns Hopkins University, Baltimore, MD 21211

RESEARCH INTERESTS

My research bridges the fields of **Systems Engineering** and **Public Health**, where I develop **computational and artificial intelligence methods** to tackle broader societal challenges. Specifically, my research focuses on:

- **Data-Driven Decision-Making**
- **Multimodal Machine Learning for Public Health**
- **Modeling Human Behavior in Complex Systems**

EDUCATION

Johns Hopkins University, Baltimore, MD, USA *Sept. 2019 - Present*
Ph.D. Systems Engineering *Expected: May 2025*
Advisor: Professor Lauren Gardner
Dissertation: From Data to Decisions: Engineering Approaches to Equitable and Resilient Public Health Systems

University of Wisconsin-Madison, Madison, WI, USA *Sept. 2017 - Jan. 2019*
M.Sc. Industrial Engineering
Advisor: Professor Vicki Bier

University of Edinburgh, Edinburgh, UK *Sept. 2015 - May 2017*
B.Sc. Material Chemistry

Tianjin University, Tianjin, China *Sept. 2013 - May 2015*
B.Eng. Chemical Engineering

AWARDS

- **INFORMS 2024 Poster Competition Second Place Award** *2024*
  INFORMS Annual Meeting, Seattle, WA, USA
- **Best Demonstration Project Award** *2024*
  Data Science and AI Institute, Johns Hopkins University, Baltimore, MD, USA
- **Graduate Student Teaching Award Nominee** *2023*
  Johns Hopkins University, Baltimore, MD, USA
- **ESRI Making a Difference Award** *2020*
  ESRI, Redlands, CA, USA
- **Richard D. Hickman Fellowship** *2019*
  Johns Hopkins University, Baltimore, MD, USA
- **Tianjin Environmental Protection Science and Technology Award** *2016*
  Tianjin Environmental Science Society, Tianjin, China
- **International Student Scholarship** *2015*
  University of Edinburgh, Edinburgh, UK

Patent:

18. Lang, f., **Du, H.**, Yan, Y., Ding, W., Du, P., 2016. Carbon dioxide heat pump system for improving heating efficiency by utilizing gas-liquid two-phase separator. CN Patent 105485951A.

INVITED TALKS

1. *Tuanshan Hill Anti-XID Forum, China CDC, Online* *2024*
   Invited by the Director of China CDC Hongbing Shen.
   From Data to Decisions: Engineering Approaches to X Infectious Disease Response.
2. *Applied Micro Brownbag Seminar, Department of Economics, Baltimore, MD, USA* *2024*
   Modeling dynamic disease-behavior feedback for improved pandemic response.
3. *Biostatistics first-year seminar, Bloomberg School of Public Health, Baltimore, MD, USA* *2024*
   Leveraging Data and Modeling Tools to Support Epidemic Response.
4. *Johns Hopkins Alumni virtual weekend, Baltimore, MD, USA* *2021*
   Hop Talk: Real-time Tracking and Forecasting of COVID-19. [link]
5. *2021 ABET SYMPOSIUM, Online* *2021*
   Closing Keynote Speaker. [link]
6. *Johns Hopkins Biomedical Engineering Spring Speaker Series, Baltimore, MD, USA* *2020*
   An interactive web-based dashboard to track COVID-19 in real time.

CONFERENCE ACTIVITY

Presentations:

1. *MIDAS Annual Meeting, DC, USA* *2024*
   Incorporate Human Behavior into Infectious Disease Modeling.
2. *INFORMS Annual Meeting, Seattle, WA, USA* *2024*
   Invited talk for section "Integration of Human, Knowledge and Systems for Quality".
   Modeling dynamic disease-behavior feedback for improved epidemic prediction and response.
3. *Data Science and AI Institute, Baltimore, MD, USA* *2024*
   Advancing Real-time Pandemic Forecasting Using Large Language Models: A COVID-19 Case Study.
   Best Demonstration Project Award.
4. *INFORMS Annual Meeting, Phoenix, AZ, USA* *2023*
   Association Between Vaccination Rates and Covid-19 Health Outcomes in the United States: A Population-level Statistical Analysis.

5. *Epidemics 8 Conference, Online* *2022*
   A Deep Learning Approach to Forecast Short-Term COVID-19 Cases and Death in the US.

6. *INFORMS Annual Meeting, Pheonix, AZ, USA* *2018*
   Game-theoretic modeling of pre-disaster relocation.

Posters:

7. *APHA Annual Meeting, Minneapolis, MN, USA* *2024*
   Advancing Real-time Pandemic Forecasting Using Large Language Models.

8. *INFORMS Annual Meeting, Seattle, WA, USA* *2024*
   Poster competition: Advancing Real-time Pandemic Forecasting Using Large Language Models. ***Second Place Award.***

9. *IDM Annual Symposium, Seattle, WA, USA* *2024*
   Advancing Real-time Infectious Disease Forecasting Using Large Language Models.

10. *MIDAS Annual Meeting, Atlanta, GA, USA* *2023*
    Association Between Vaccination Rates and Covid-19 Health Outcomes in the United States: A Population-level Statistical Analysis.

11. *Ecology and Evolution of Infectious Diseases, University Park, PA, USA* *2023*
    Association between vaccination rates and severe COVID-19 health outcomes in the United States: a population-level statistical analysis.

12. *IDM Annual Symposium, Seattle, WA, USA* *2023*
    Incorporating variant frequencies data into short-term forecasting for COVID-19 cases and deaths in the USA: a deep learning approach.

13. *AI in Healthcare Symposium, Baltimore, MD, USA* *2019*
    Data-driven Vehicle-routing Approach to Connect Chronically-ill Patients.

RESEARCH MENTORSHIP EXPERIENCES

- Samee Saiyed, Ph.D. Candidate, Johns Hopkins University *2022 to now*
  Infectious Disease Forecasting and Human Mobility.
- Naomi Rankin, Ph.D. candidate, Johns Hopkins University *2023 to now*
  Infectious Disease Forecasting and Statistical Inference.
- Shaochong Xu, Ph.D. candidate, Johns Hopkins University *2023 to now*
  Real-time Flu Forecasting and Timeseries Clustering.
- Xianglong Wang, Graduate student, Johns Hopkins University *2023*
  Real-time Flu Forecasting.
- Liyue Zhang, Graduate student, Johns Hopkins University *2024 to now*
  Vaccine Hesitancy.

TEACHING EXPERIENCE

Applied Modeling for Public Health 2023 Workshop *October, 2023*
Johns Hopkins International Vaccine Access Center, Baltimore, MD
Instructor

EN.560.653 An Introduction to Network Modeling *Fall 2020, 2021, 2022*
Teaching Assistant
Responsibilities: Design homework, exams, and weekly labs. Giving formal lectures.
